Beskrivning

Item description

Operating range:

The medical face mask provides optimum personal protection with a low breathing resistance and high comfort for the face. Thanks to the unique, highly efficient retention of the filter media, penetration of viruses and bacteria is effectively minimised.

Properties:

The mask is equipped with 3 effective filter layers from the inside to the outside: 1. The inner layer was designed in such a way that face comfort is ensured when wearing and at the same time, is water-repellent. 2. The core consists of a proprietary, highly efficient filter medium, which was tested with and certified for a retention rate of >99.9%. 3. The PTFE-coated polypropylene spun-bonded fabric is strongly water-repellent and prevents the penetration of liquid droplets.

Advantages:

•Made in Germany,

•manufactured in conformity with all the applicable standards: CE-certified, EN 14683 type IIR, 93/42/EWG, GMP,

•low breathing resistance,

•prevention of unfiltered air flow thanks to high-quality nose clamp,

•high face comfort through the unique smooth filter medium,

•outstanding filtration efficiency, which guarantees optimum personal protection,

•PTFE-coated polypropylene spun-bonded fabric - resistance to splashing water ensures maximum safety in any situation,

•round, elastic ear loops ensure fast and lasting mounting,

•free of latex and fibreglass,

•anti-allergic

Properties

Dimension [mm] 175 x 95

Package contents 50 units
